BATHROOM

Dishwashing Liquid

Effectively dissolves grease and food residues. Promotes quick drying after rinsing.

- ✓ Long foaming
- ✓ Effective even in hard water
- ✓ Cleans and provides shine.

Teflon Cleaner

The product is also compatible with other materials such as: stainless steel, copper, aluminum, zinc, glass, ceramic, plastic. Requires rinsing.

- ✓ Dissolves burnt grease
- ✓ Fast action
- ✓ Easy to use

Cleaning Solution For Glass-Ceramic Hobs

Effectively cleans without destroying the gloss of surfaces.

- ✓ Dissolves grease
- ✓ Fast action
- ✓ Suitable for multiple surfaces

Glass Cleaner

Cleans effectively, including grease. It has an anti-fogging effect for glass and mirrors, prevents dust build-up, and has antistatic and temporary repairing effects for microcracks. Evaporates quickly and does not require rinsing.

- ✓ Leaves no marks
- ✓ Provides shine
- ✓ Leaves a pleasant scent

Universal Degreaser With Bicarbonate

Forms an active film that effectively aids the cleaning process. Does not leave marks and does not scratch surfaces. May require rinsing after use.

- ✓ Effective on multiple surfaces
- ✓ Does not discolor
- ✓ Provides shine

Stainless steel cleaner

It forms an effective active film in the cleaning process of metal surfaces, as it preserves and maintains the metallic gloss. No need to rinse.

- ✓ Remove limescale
- ✓ Degrease metal surfaces
- ✓ Act quickly

Appliance Cleaner Kitchen Use

Removes dirt and grease stains. It is compatible with a wide range of surfaces. No need to rinse.

- ✓ Cleans effectively
- ✓ Quick action
- ✓ Leaves no marks

Kitchen Degreaser

It is suitable for a wide range of materials without affecting the treated surfaces. Requires rinsing after use.

- ✓ Cleans dirt quickly and efficiently
- ✓ Provides freshness
- ✓ Easy to use

Wood & Furniture Solution

Cleans deeply, protecting the original look. Removes dirt, stains and fingerprints, providing antistatic effect and protection against dirt. Does not require rinsing after use.

- ✓ Antistatic effect
- ✓ Cleans and protects
- ✓ Provides an even shine

Oven Cleaner

Easily removes food, fats and carbon residues. Requires rinsing after use.

- ✓ Leaves no residue
- ✓ Dissolves fat
- ✓ Does not attack surfaces

Wood Floor Cleaner

The product also has a degreasing effect. Does not require rinsing after use.

- ✓ High efficiency with only 1% dilution
- ✓ Gives uniform glow
- ✓ Pleasant fragrance

Floor Cleaning Solution

The product has a degreasing effect. Does not require rinsing after use.

- ✓ High efficiency with only 1% dilution
- ✓ Helps remove grease and dirt
- ✓ Floral fragrance

Toilet Descaling Gel

Cleans dirt and limescale deposits. Forms an active film that effectively prevents limescale deposits, which should be maintained with periodic product applications. Requires rinsing after use.

- ✓ Anti-limescale efficient
- ✓ Chlorine-free
- ✓ Multi-surface compatible

Bathroom Cleaner

Forms an active protective film that effectively prevents limescale buildup, which should be maintained through periodic applications of the product. Requires rinsing.

- ✓ Stainless steel and ceramic surfaces
- ✓ Removes limescale
- ✓ Leaves no marks

Disinfectant Wet Wipes for Surfaces

High-level disinfectant for various bathroom surfaces.

- ✓ Cleans and disinfects
- ✓ No rinsing
- ✓ Multi-surface compatible
