

HANDS & SKIN

Klintensiv® Disinfectant gel

Hygienic and surgical disinfectant, with action: **Bactericidal:** EN 1500, EN 12791, EN 13727 (including MRSA and K. pneumoniae); **Mycobactericidal / Tuberculocidal:** EN 14348; **Yeasticidal:** EN 13624 (including C. auris); **Virucidal:** EN 14476 (including enveloped viruses)
Packaging: 500 ml, 1 L bottles; 5 L canister

Alchosept

Hygienic and surgical disinfectant, with action: **Bactericidal:** EN 1500, EN 12791, EN 13727 (including MRSA and K. pneumoniae); **Mycobactericidal / Tuberculocidal:** EN 14348; **Yeasticidal:** EN 13624 (including C. auris); **Virucidal:** EN 14476 (including enveloped viruses)
Packaging: 500 ml, 1 L bottles; 5 L canister

Betaklin

Hygienic and surgical disinfectant, with action: **Bactericidal:** EN 1500, EN 12791, EN 13727 (including MRSA, E. faecium, K. pneumoniae, S. epidermidis and A. baumannii); **Mycobactericidal / Tuberculocidal:** EN 14348; **Yeasticidal:** EN 13624 (including C. auris); **Virucidal:** EN 14476 (including enveloped viruses). **Packaging:** 120 ml, 1 L bottles

Quat soap

Hygienic and surgical disinfectant soap, with action: **Bactericidal:** EN 1499, EN 12791, EN 13727 (including MRSA and E. faecium); **Yeasticidal:** EN 13624; **Limited Virucidal:** EN 14476
Packaging: 1 L bottles; 5 L canister

SURFACES

Klintensiv® Surface disinfectant RTU

High-level ready-to-use disinfectant detergent, with action: **Bactericidal:** EN 13727 (including MRSA, E. faecium and K. pneumoniae), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 17387, EN 14562; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111; **Packaging:** 1 L bottles; 5 L canister

Klinosept

Intermediate-level ready-to-use disinfectant, with action: **Bactericidal:** EN 13727 (including MRSA, E. faecium and K. pneumoniae), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 17387, EN 16615, EN 14562; **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111
Packaging: 500 ml, 1 L bottles; 5 L canister

Klintensiv® Disinfecting wet wipes

High-level ready-to-use disinfectant wipes, with action: **Bactericidal:** EN 13727 (including MRSA, K. pneumoniae, E. faecium), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 14562; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111
Packaging: 80 wipes/pack; 120 wipes/tube

Klinomed™ wipes

High-level ready-to-use disinfectant wipes, with action: **Bactericidal:** EN 13727 (including MRSA, E. faecium, K. pneumoniae), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 17387, EN 14562; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111
Packaging: 120 wipes/tube

Oxoklin Powder

High-level concentrated disinfectant, with action: **Bactericidal:** EN 13727 (including MRSA), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348; **Yeasticidal:** EN 13624, EN 16615, EN 14562; **Fungicidal:** EN 13624; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111
Packaging: 1 kg box

Deziamino

Intermediate-level concentrated disinfectant detergent, with action: **Bactericidal:** EN 13727 (including MRSA), EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624, EN 14562; **Fungicidal:** EN 13624, EN 14562; **Virucidal:** (enveloped viruses): EN 14476
Packaging: 1 L bottle; 5 L canister

Dezicon

High-level concentrated disinfectant detergent, with action: **Bactericidal:** EN 13727 (including MRSA, E. faecium and K. pneumoniae), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 14562; **Sporicidal:** EN 17126 (C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111
Packaging: 1 L bottles; 5 L canister

INSTRUMENTS

Sterisol

High-level ready-to-use disinfectant detergent, with action: **Bactericidal:** EN 13727 (including MRSA, E. faecium and K. pneumoniae), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 17387, EN 14562; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476 (including enveloped viruses), EN 16777, EN 17111. **Packaging:** 1 L bottle; 5 L canister

Oxoklin

High-level concentrated disinfectant, with action: **Bactericidal:** EN 13727 (including MRSA and E. faecium), EN 17387, EN 16615, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624 (including C. auris), EN 17387, EN 16615, EN 14562; **Fungicidal:** EN 13624, EN 17387, EN 14562; **Sporicidal:** EN 17126 (including C. difficile); **Virucidal:** EN 14476, EN 16777, EN 17111
Packaging: 1 L bottles; 5 L canister

Concentrated enzymatic disinfectant detergent

Intermediate-level concentrated disinfectant detergent, with action: **Bactericidal:** EN 13727, EN 14561; **Mycobactericidal / Tuberculocidal:** EN 14348, EN 14563; **Yeasticidal:** EN 13624, EN 14562; **Fungicidal:** EN 13624, EN 14562; **Limited Virucidal:** EN 14476
Packaging: 1 L bottle; 5 L canister

Medical Instrument Reprocessing:

Cleaning (Phase 1): Concentrated enzymatic disinfectant detergent

Disinfection (Phase 2): Concentrated enzymatic disinfectant detergent / Deziamino (intermediate-level disinfection)

Disinfection (Phase 3): Dezicon / Sterisol (high-level disinfection) or Oxoklin (cold chemical sterilization – for heat-sensitive instruments)

MICROAEROFLORA

Desogen aero

High-level disinfectant for nebulization, with action: **Bactericidal, Mycobactericidal / Tuberculocidal, Yeasticidal, Fungicidal, Sporicidal, Virucidal:** EN 17272
Packaging: 1 L bottle; 5 L canister

MEDICAL

Professional disinfectants for medical use

hands and skin • surfaces and floors • instruments and medical devices • microaeroflora

Trusted by medical professionals. Proven in clinical environments. Ready for your healthcare facility.

Medical Disinfectants

Klintensiv

HANDS & SKIN INSTRUMENTS SURFACES MICROAEROFLORA

Quat soap

Hygienic and surgical disinfectant soap, based on quaternary ammonium salts. It's dermatologically tested.

- ✓ Long-lasting effect
- ✓ Emollient effect
- ✓ Effective also against MRSA and E. faecium

Desogen aero

High-level disinfectant for nebulization, ready to use, based on hydrogen peroxide and quaternary ammonium salt

- Application: 10 ml/m³ for 30 minutes ✓
- Effective also against MRSA, K. pneumoniae, A. Baumannii and C. auris ✓

Concentrated enzymatic disinfectant detergent

Intermediate-level disinfectant detergent for surfaces and instruments, concentrated, based on amine and quaternary ammonium salts. Removes organic residues with a trienzymatic complex.

- Cleans and disinfects without causing damage ✓
- Low foaming ✓
- Compatible with various materials ✓

Alchosept

Hygienic and surgical disinfectant, based on 85% v/v ethanol. It's dermatologically tested.

- ✓ Emollient effect
- ✓ Long-lasting effect
- ✓ Effective also against MRSA, K. pneumoniae, and C. auris

Oxoklin

High-level disinfectant for surfaces, instruments and textiles, concentrated, based on peracetic acid, hydrogen peroxide and ethanol.

- ✓ Oxidative cellular mechanism
- ✓ Acts even at low temperatures
- ✓ Effective also against MRSA and E. faecium

Klinomed™ wipes

Intermediate-level disinfectant for surfaces and instruments, ready to use, based on 85% v/v ethanol.

- Quick action, easy to use ✓
- Effective also against MRSA, K. pneumoniae, E. faecium, C. auris ✓
- No rinsing required ✓

Dezicon

High-level disinfectant detergent for surfaces and instruments, concentrated, based on quaternary ammonium salts.

- Low foaming ✓
- Compatible with multiple surfaces ✓
- Effective also against MRSA, K. pneumoniae, E. faecium, and C. auris ✓

Klintensiv® Surface disinfectant RTU

High-level disinfectant for surfaces and instruments, ready-to-use, based on quaternary ammonium salts.

- ✓ Low foaming
- ✓ Compatible with multiple surfaces
- ✓ Effective also against MRSA, K. pneumoniae, E. faecium, and C. auris

Klintensiv® Disinfectant gel

Hygienic and surgical disinfectant, based on 85% v/v ethanol. It has an emollient effect and it's dermatologically tested.

- ✓ Effective also against MRSA, K. pneumoniae and C. auris
- ✓ Does not leave sticky hands
- ✓ Long-lasting effect

Betaklin

Hygienic and surgical disinfectant soap, based on quaternary ammonium salts. It's dermatologically tested.

- Long-lasting effect ✓
- Suitable for disinfecting superficially skin injuries and intact mucous membranes ✓

Klintensiv® disinfecting wet wipes

High-level disinfectant wipes for surfaces and instruments, ready-to-use, based on quaternary ammonium salts.

- Compatible with multiple surfaces ✓
- Cleans and disinfects ✓
- Effective also against MRSA, K. pneumoniae, E. faecium, and C. auris ✓

Oxoklin powder

High-level disinfectant for surfaces and instruments, concentrated, based on peracetic acid and quaternary ammonium salts.

- ✓ Oxidative cellular mechanism
- ✓ Effective also against MRSA
- ✓ Acts even at low temperatures

Sterisol

High-level disinfectant for surfaces and instruments, ready-to-use, based on quaternary ammonium salts.

- ✓ Low foaming
- ✓ Compatible with multiple surfaces
- ✓ Effective also against MRSA, K. pneumoniae, E. faecium, and C. auris

Deziamino

Intermediate-level disinfectant detergent for surfaces and instruments, concentrated, based on amines and quaternary ammonium salts.

- Effective also against MRSA ✓
- Low foaming ✓
- Compatible with multiple surfaces ✓

Klinosept

Intermediate-level disinfectant for surfaces and instruments, ready to use, based on 85% v/v ethanol.

- Fast-acting disinfectant ✓
- No rinsing required ✓
- Effective also against MRSA, K. pneumoniae, E. faecium, C. auris ✓
